Footnote:
1. "My lookup system" refers to the system god has given us to link, define, understand, and become the words he is giving us. Whenever you see the words "look up", that is instructing us to search the Central Database of this University for the words we are being told to "look up" so we see what else has been given us about that word or subject. This is part of the learning system given us, described more fully on the University website and in the Enter Me course documents. See www.NewCovenant.me
